LASSE WEBER

INTRODUCTION

Hello, I'm Lasse, a dedicated web developer with a unique background in electrical work. My transition into the web development field has allowed me to leverage my logical thinking and attention to detail.

I thrive in dynamic environments, approaching challenges with curiosity and a commitment to excellence. I'm currently seeking a 7th-semester internship, with a strong interest in both frontend and backend development. If my profile aligns with your needs, please reach out. I'm eager to contribute to your team and explore new opportunities.

Hello

My name is Lasse and I'm applying for this position at a&o Hostels Copenhagen Nørrebro.

I'm currently studying multimedia design (INT) at KEA. I just about to finish my second semester and will then have two semester left with the possibility of a top-up adding another six semesters.

I'm applying for this job as it seems like a good fit for me, I have previous experience working at hostels specifically checking in and out guests, furthermore I have had other jobs in the service industry where I have had dealings with customers so it is very familiar to me.

As a colleague I am ...

... always ready to give a helping hand.

.. always prepared to brainstorm regarding an issue and offering my perspective to possible solution.

... generally a positive and calm presence to have in a work environment.

... a very inclusive person that gets along with most people.

As an employee I am ...

... a very detail oriented person.

... dedicated and always do my part.

... one who can clock in on time, even if this would be early on the day.

... good at taking responsibility.

... quick learner and always ready for new challenges.

I hope for the chance to get an interview with you in regards to this position.

Kind regards Lasse W. Jørgensen
